

Soultalk

I serve the big whole and the small nothing.

I am the guardian of the butterflies
and bringer of the light.

Shining bright.

In honour of the darkness and grace
the ice breaks -

Within love and freedom the soul states:

„You shall live, your life
in fullness and abundance,
pleasure and joy,
love and silence.

Up and steady,
happy in being ready.

I love you
forever and ever,
infinitely united together.“
